tion by the two governments, it is fully believed here that they will act along parallel lines which will amount to the same as joint action.

Source of Irritation. The continued activity of the Red Sea squadron is a source of irritation. It is held that there has now been time to notify the Russian volunteer gruisers of their changed status, and while the vessels selzed have been released as soon as they have reached a port where direct communication could be had with them, the delay is vexatious and not calculated to quiet inflamed public opinion

inion The situation has had a bad effect or the markets. Consols and all other se-curities are weak at a lower range of prices. War issurance rates are scaring prices. War insurance rates are source, and the manufacturing industries are showing the effect of the strain. Conservative business men declare that an open state of war would be preferable to existing conditions.

State Department Receives Protest and Is Now Considering

Course to Follow.

(By Associated Press.)
WASHINGTON, D. C., July 27.-The State Department has finnily received a formal protest against the action of the Russian navy in seizing American soods, and as the result of its preliminary study of the law and precedents governing the subject, it is prepared to act energetically and promptly. This pro-test relates to the selzure of an Ameri-can cargo on beard the Hamburg-Ameri-can steamer Arabia, bound from Port-land, Oregon, for Hong Kong, China. Sen-ator J. H. Mitchell, of Oregon, telegraphed the State Department a statement of d the State Department a statement of the conditions under which the Arabia carried out this cargo. Mr. Mitchell stated that he represented the Portland Milling Company, which had shipped on the Arabia for Hong Kong 99,000 sacks of flour, worth about \$100,000. Ale declared that this flour was in no sense contraband, for it was not destined for Japan, and it was part of the normal trade of the company and was not a war order.

Mr. Mitchell requested the State De-Mr. Mitchell requested the size 180-partment to take the necessary steps to secure indemnity and satisfaction for the owners of the flour, and also to pro-tect legitimate neutral trade from such scrious interference as these attacks by

icct legitimate neutral trade from such scrious interference as these attacks by the Vladivostok squadron.

The department officials positively decline to say what course they intend to pursue, save for a declaration that there will be no inconsiderate action; that the whole subject of interference with American trade by beiligerents in the present war will be considered, and that each protest that may be forwarded will be part of a uniform and consistent policy to be followed by the department.

The case of the Knight Commander, a neutral ship, laden with neutral goods and sunk by the Vladivostok squadron, which is regarded as a particularly strong one against the Russian government, has not yet been made the subject of a formal protest. Undoubtedly, however, the dictum of Hall, an English authority, which unqualifiedly bars the sinking of a neutral ship, will be adopted here as it is in England as the only scund principle to follow in the Knight Commander case.

### DEMAND FULL REPARATION.

Great Britain Sending Instruc tions to Ambassador

o Russia. (By Associated Press.)

LONDON, July 27 .- The British govern ment is sending instructions to Sir Charles Hardinge, the British ambassador to Russia, to-day to protest energetically against the sinking of the British steamer Knight Commander by the Russteamer Knight Commander by the Russian Viadivostok squadron. Until the presentation of the pote to the Russian government the greatest secrecy will be maintained regarding its coutents, but it is known that Premier Balfour and his colleagues have decided to demand the fullest reparation shall be made by Russia, or measures will be taken to follow up the diplomatic demands.

The British acte, as Sir Charles Hardinge will submit it, will not mention the appoint of indematy Russia raust pay the owners of the whip and British subjects having goods on beard the vessel, but all that will be sought will be the

size having goods on board the vessel, but all that will be sought will be the establishment of the principle of indemnity and apology. A sainte of the British flag must also be conceded and the fature protection of neutral shipping apsured.

The attitude of the British government is the result of thorough consideration gives to the reports received from Bir Claude Macdonald, the British minister at Tokio and the examination of international law authority by legal experts. The dispatches from Bir Claude Macdonald confirm the reports that the Knight Commander had no contraband of way on board for Japan. The government and all the British authorities, it is asserted, unite on the point that there was no justification for the sinking of the vessel. It is felt in government circles that the Knight Commander incident overshadows the Red Sea seizures, which practically have been adjusted, but which

Russian Loss Over Six Hundred and Japanese Said to be Still Greater.

(By Associated Press.)

(By Associated Press.)

ST. PFTERSBURG, July 27.—The report of General Zaroubalff, which was given out to-night, furnishes the first detailed account received here of the battle'of July 24th, leading up to the evacuation of Ta Tche Kjao, the fruits of which are already apparent in the Japanese occupation of New Chwang.

General Zaroubalff says that the attack followed a junction of the armies of Generals Oku and Nodzu and that at least two divisions, greatly superior in number of guns, participated in the assault on the Russian position, which was held by only eighteen battalions over a front of nine miles.

The determined nature of the assault

front of nine miles.

The determined nature of the assault and the defense is shown by the fact that there was a continuous fight of fifteen and one-half hours, during which the Russians held all their positions and re-Russians held all their positions and re-tired next day only in face of the ad-vance of the whole of the Japanese ar-mies, consisting of over seven divisions. The Russian loss is estimated at twenty officers and six hundred men and the Japanese also estimated, as "greater than

enemy from their strong line of defense south of Ta Tche Kine.

(Continued from Ta Tche Kine.)

At least 1,000 new employes were taken At least 1,00 new employes were taxin into the yards to-day and put to work. A conservative estimate of the number of animals slaughtered to-day by the different plants placed it about one-half the amount disposed of under normal conduions.

Girls Attack Forewoman.

Kitty English, forewoman in the sewing department of Swift and Company's rlant, was mobbed and badly hurt by a crowd of girl strike sympathizers at Haistend and Root Streets. Fully a dozen girls took part in the attack, They beat the forewoman with their fists, tore her ciothing and finally stabbed her with a hat pin. After a desperate struggle, Miss English escaped. No arreats were made.

Stockyards teamsters joined the packing employes to-day, Seven hundred of the drivers for the packing companies refused to go to work, the teamsters joint council having endorsed the vote to strike, and ordered the members of every other local union in Chicago to make no deliveries to the stockyards.

Fire in Lard Refinery.

Fire broke out among the packing houses in the stock yards to-day in the lard refinery of Swift and Company, and soon gained such headway that every available fire engine in the stock yards district was called out. Rumors of incendarism were rife. Examination, however, showed the cause of the blaze to have been an overheated dynamo. The building, 150-by 250 feet, and three stories high, was filled with therees of lard, may of which exploded, spreading the burning grease in every direction. The damags was principally confined to the upper part of the building. According to Louis F. Swift, the actual loss will be only a few thousand dollars, fully insured.

Hungry Wives and Mothers.

Despite the fact that a relief fund of \$20.000 was voted last night to alleviate the distress of the strikers and their families who are in want, there was little change to-day in the thousands of poverty-stricken strike sufferers huddled in the squalld district generally referred to as "Back of the Yards." Instead of complaining, there is a disposition to conceal destitution, lest the fact of the impoverishment of the strikers, becoming known, might operate against the success of the union's struggles.

The police never ascertained who fired the shot.

### UNEXPECTED.

Freight Handlers at Stock Yards Station Join Strike.

Station Join Strike.

(By Associated Press.)

CHICAGO, July 27.—An unexpected complication arose to-night when the freight handlers employed at the Stock Yards station of the Chicago Junction Railroad went on strike. The men gave as their reason, for quitting work their unwillingness to handle meat turned out by non-union workmen in the packing plants. While the number of freight handlers employed at this station is only forty men, still their decision to join the sympathetic strike is a severe blow to the packers, as the greater portion of the dressed meats shipped from the yards to the local trade passes through the hands of these men.
